## Preparing the Attestation of Compliance with the *Broader Public Sector Accountability Act, 2010*

Reporting period: April 1, 2017 to March 31, 2018

The Board of Directors has the responsibility to ensure the organization complies with all legislation and regulations, including the *Broader Public Sector Accountability Act, 2010*, and the Procurement, Expenses, Perquisites, and Business Documents Directives.

The Attestation Form sets out **thirteen** (13) requirements and requires the organization to:

- attest that it has complied with each of the **thirteen** (13) requirements; or
- if not in compliance, to report corrective actions that will bring the organization into compliance **within six months**.

This guideline outlines some of the activities the Board members could undertake to fulfill their role of managerial oversight related to the attestation process. The preparation activities numbered below match the numbering of the criteria listed on the Attestation Form.

### **Lobbyists**

1. Obtain written confirmation from the Chief Executive Officer that the organization has not engaged a lobbyist to provide services from funds provided by the Province of Ontario.

### **Procurement**

2. Obtain a copy of the organization's formal procurement policy that adopts the Supply Chain Code of Ethics found in the Broader Public Sector Procurement Directive, with the date the policy was approved by the Board.
3. Locate the organization's procurement policy which includes the Ontario Broader Public Sector Supply Chain Code of Ethics that is available to all members of the organization, suppliers and stakeholders.
4. Obtain written confirmation from the Chief Executive Officer that the organization has maintained procurement policies that embody the 25 mandatory requirements of Broader Public Sector Procurement Directive.
5. Obtain written confirmation from the Chief Executive Officer that the organization has conducted its procurements following approved policies which comply with the requirements of the Broader Public Sector Procurement Directive.

The Chief Executive Officer must provide a report on all non-competitive procurements, showing that approvals given were consistent with the approval authority schedule, and there is documentation that cites the appropriate "allowable exception" justifying a non-competitive procurement.

## Reimbursable Expenses

6. Obtain a copy of the organization's policy and/or rules for travel, meal and hospitality expenses and confirm it is in compliance with the eight requirements set out in the Broader Public Sector Expenses Directive.

Obtain a report from the Chief Executive Officer summarizing all hospitality events paid for the organization showing the approvals provided prior to the events and the costs. Maintain records of travel, meal and hospitality expenses approved by the Board.

7. Obtain written confirmation from the Chief Executive Officer that the organization has managed its travel, meal and hospitality expenses following approved policies, which comply with the requirements of the Broader Public Sector Expenses Directive.
8. View public website of the organization and locate the policy and/or rules on the expenses which the organization should have published as per that policy and/or rules.

## Perquisites

9. Obtain a copy of the organization's policy and/or rules for perquisites and confirm that it is in compliance with the requirements set out in the Broader Public Sector Perquisites Directive, with the date the policy and/or rules was approved by the Board.
10. Obtain written confirmation from the Chief Executive officer that the organization has managed perquisites, following approved policies, which comply with the Broader Public Sector Perquisites Directive.
11. View the public website of the organization and locate the policy and/or rules on perquisites as well as the list of perquisites received by staff and appointees. The organization should publish these annually or post a statement to the effect that the organization does not give staff and appointees perquisites.

## Business Documents

12. View the public website of the organization and locate the business plan, which should be posted within six months of the beginning of the organization's fiscal year; this information is about the future. For example, if the organization's fiscal year begins on April 1, it should post this information **by October 1 of each year**.
13. View the public website of the organization and locate additional business or financial documents each year within six months of the end of the organization's fiscal year; this information is about the previous fiscal year. For example, if the organization's fiscal year ends on March 31, it should already have posted these documents, as they were to be posted **by the end of September 2017**.

Your organization may already include the required information in documents with different titles; for example, business plans, strategic plans, accountability agreements. In these cases, it is not necessary to rename or create new documents, as long as the information required is available to the public (i.e., posted on the organization's website).
